Thailand Post's Announcement

Subject: Kindly **pack items at the post office** or **allow content inspection before posting ePacket items to the United States** and **ePacket DDP items to EU Member Countries.**

Thailand Post Co., Ltd. (THP) has been informed by its courier partner for ePacket service to the United States and ePacket DDP service to the 15 European Union (EU) member countries that a significant volume of shipments detected narcotics, illegal goods, and prohibited items, such as cannabis, counterfeit goods, medicines, plant parts, seeds, and food products. Consequently, customs authorities in transit and destination countries have tightened inspections on shipments sent from Thailand, resulting in shipments being detained for extended periods pending inspection. Please be advised that any items identified to contain narcotics, illegal goods, or prohibited items will be detained, seized, abandoned, or destroyed by customs authorities and senders will also be subject to legal prosecution and additional charged fees.

Therefore, to prevent narcotics, illegal items, and prohibited items from entering international network and to ensure smooth and timely processing and delivery in accordance with the service standards, **customers wishing to use ePacket to the United States and ePacket DDP to 15 destinations in the European Union are kindly requested to pack their items at the post office. If the items are already packed, kindly allow postal staff to open and inspect the contents of each item before posting.**

Customers can check the list of prohibited items for ePacket service to the United States and ePacket DDP service to the European Union in the attachment to this announcement or by **scanning the QR code provided below.**
